

# OFFER YOU A NEW VISION

User Manual

**Model : T6**

## IMPORTANT SAFETY CONSIDERATIONS

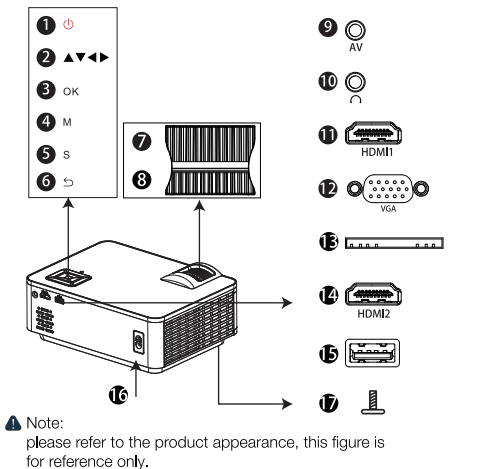

### Attentions:

Thank you for purchasing this series of digital projectors.  
Please read through this User's manual for proper use of this product.

### Note:

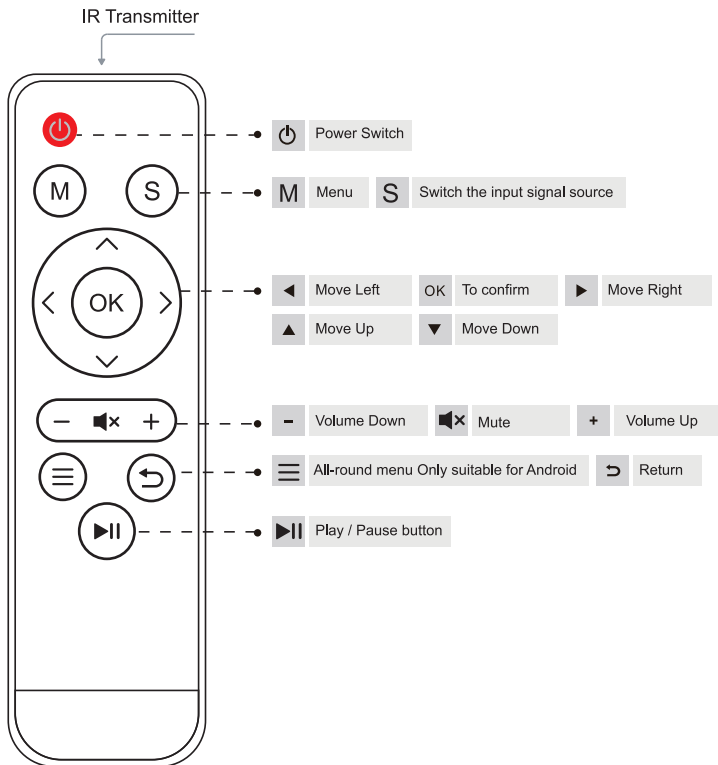

- 1 Do not look directly into the lens while the projector is running, as strong light may damage your eyes.
- 2 Do not block the air outlet to prevent the projector from cooling down because internal electronics are damaged.
- 3 Keep the projector and accessories out of the reach of children.
- 4 Please make sure that the working environment of the projector is dry and ventilated.
- 5 Do not place the projector in a place that is too hot or cold which will shorten the life of the device. The recommended working environment is 5 °C ~ 35 °C.
- 6 Do not press hard on the projector, as it may damage the product.
- 7 Do not throw, hit, or shake the projector to avoid damaging the circuit board.
- 8 Any questions after receiving the projector, please feel free to contact us through Amazon Support, we will quickly and correctly solve your problem within 24 hours and give you a satisfactory answer.

## PRODUCT OVERVIEW

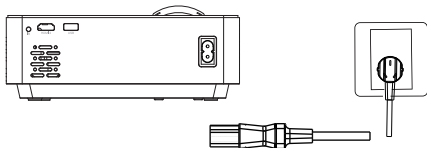

- 1 Power
- 2 Arrow Keys
- 3 OK
- 4 Setting
- 5 Signal Source
- 6 Back
- 7 Lens Focussing
- 8 Keystone Correction
- 9 Audio / Video Input
- 10 Earphone / 3.5mm Audio Out
- 11 HDMI 1
- 12 VGA Input
- 13 Media Card
- 14 HDMI 2
- 15 USB
- 16 Power Input(110-240V)
- 17 Adjustable Knob

## REMOTE CONTROL

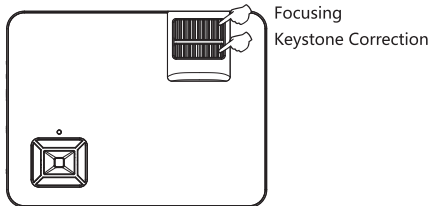

## POWER

- 1: Plug the power cord into a power outlet.
- 2: Press the button “” on the projector or on the remote control.

| Audio Format Supported | MP3/WMA/PCM/AAC/FLAC                        |

## CONNECTING

### MORE TIPS ABOUT NETFLIX, PRIME VIDEO, HULU, ETC

It works with youtube, chrome, safari, facetime when you connect it to a smartphone directly.

And it doesn't support play protected video when you connect it to your smartphone directly. (Netflix, Prime Video, Hulu, etc) Due to these videos have an encryption protocol, the projector has no right to recognize when it is connected directly to the phone via the USB interface.

But it works with Netflix, Amazon prime video or any other copyright videos when connecting this projector to a laptop, fire tv stick, Roku or Chrome cast. The reason why the fire stick or other HDMI devices can play Netflix is that the HDMI interface encryption protocol includes Netflix's.

**Last but not least this projector does not support Dolby sound.**

So there will be no sound when you play Dolby sound videos, (Amazon fire stick, Netflix, Blue ray movies and so on). In this case, please kindly turn off the Dolby sound on your device or apps.

The instruction for your reference to turn off the Dolby sound (Settings > Display & Sounds > Audio > Dolby Digital Output > and then turn Dolby Digital (OFF)

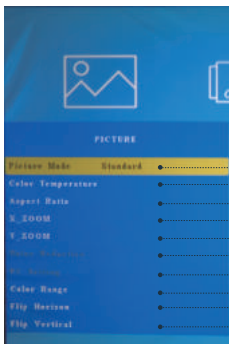

## PROJECTION SETTINGS

1. Click "Menu" of the projector remote control or "M" of the projector, enter the setting menu.

## PROJECTION SETTINGS

1. Dust prevention: Excessive dust will affect the heat dissipation of the projector. It is suggested to clean its dust filter every one or a half months according to the actual environment.
2. Ventilation: As the projector integrates the sound & photo-electricity, the optical source will produce heat during its operation. Therefore, it shall be ensured that no objects around will block the air inlet and outlet of the projector to improve its working stability and service life.
3. Lens maintenance: Lens, as the core component of the projector, is directly related to the picture definition. The dirty lens shall be wiped with a soft cotton cloth for the glass lens surface. Hard cloth or abrasives shall not be used.
4. Cleaning: Excessive dust on the projector surface shall be cleaned in a timely manner, as it will affect the heat dissipation.
5. Moisture protection: The projector is vulnerable to the damp air. Its operating humidity is about 45%- 60%.
6. Vibration prevention: The projector shall be strictly protected from strong impact, extrusion and vibration. Try not to move and knock the projector during its normal operation, which will cause the internal circuit faults.

# TROUBLESHOOTING GUIDE

## 1. Blurry Image

- \* Adjust focus ring/keystone.
- \* Projector and screen/wall must be in effective distance.

## 2. Remote Unresponsive

- \* Make sure remote points at IR receiver directly.
- \* Do not cover IR receiver.
- \* Try a new pair of AAA batteries.

## 3. Upside Down Images

- \* Go to Menu>PICTURE>Projection mode to flip the projection image.

## 4. Auto On/Off

- \* Go to Menu>TIME>Auto On/Auto Off and set the time to automatically turn on/off the projector.
- \* Go to Menu>TIME>Sleep Timer to adjust the time period before the projector automatically turns off.

## 5. Factory Reset

- \* Go to Menu>OPTION>Factory Reset to restore factory settings as needed.

## 6. Language Settings

- \* Go to Menu>OPTION>OSD Language to select the language.

## 7. Dolby Sound

- \* Turn off the Dolby sound on your device or apps: Settings > Display & Sounds > Audio > Dolby Digital Output > turn Dolby Digital OFF.

## 8. Why Is the Audio of the Projector Available but Without Display?

- \* The video format is not supported by the projector.
- \* Encryption applied to the videos or media player which holds the video.
- \* If the lamp of the projector is off with only audio playing, the lamp is defective.

### **Please Contact Amazon Seller Support for Replacement.**

- \* Try another HDMI cable if you select the HD input source.
